

BECC-109: Intermediate Macroeconomics-II

Course Code	BECC-109
Course Title / Subject	Intermediate Macroeconomics-II
Programme	Undergraduate Honours / CBCS
Medium	English Medium
Marks	100
Assignment Type	Tutor Marked Assignment (TMA)

This reference solution is prepared in clear, professional academic language for direct handwritten assignment practice.

Official IGNOU Assignment / Syllabus Question Paper

The question paper below is rendered from the official IGNOU assignment syllabus PDF.

BECC-109 : INTERMEDIATE MACROECONOMICS - II

Course Code: BECC-109

Assignment Code: ASST/BECC 109/ 2025-26

Total Marks: 100

Assignment I

Answer the following Descriptive Category Questions in about 500 words each. Each question carries 20 marks. Word limit does not apply in the case of numerical questions.

$2 \times 20 = 40$

- 1) Explain how a consumer's preference and optimum levels of consumption is determined in the two-period consumption model.
- 2) Describe the salient features of business cycle. What are the leading indicators and the lagging indicators of business cycle?

Assignment II

Answer the following Middle Category Questions in about 250 words each. Each question carries 10 marks. Word limit does not apply in the case of numerical questions.

$3 \times 10 = 30$

- 3) What is a loss function? How does the shape of the function change according to perception of inflation and unemployment by the Central Bank?
- 4) Give a brief outline of the major schools of macroeconomic thought.
- 5) Bring out the salient features of the Baumol-Tobin model of transaction demand for money.

Assignment III

Answer the following Short Category Questions in about 100 words each. Each question carries 6 marks.

$5 \times 6 = 30$

- 6) State the implications of the knife-edge problem on economic growth of an economy.
- 7) State the major inferences on policy that we can draw on the basis of new-classical economics.
- 8) Describe the various channels of monetary transmission mechanism.
- 9) Explain the major insights from the Ricardian equivalence proposition.
- 10) Write a short note on the limits to monetary policy in an economy.

Solved Answers

Answer 1: Explain how a consumer's preference and optimum levels of consumption is determined in the two-period consumption model. (ignoucollage.in)

About 500 words

The study and understanding of **how a consumer's preference and optimum levels of consumption is determined in** represents a core analytical dimension within the subject. In academic inquiry, examining this topic involves analyzing its underlying principles, structural features, and functional mechanisms. A comprehensive perspective requires looking beyond surface definitions to understand how established theories and empirical observations interact to explain observable outcomes. By establishing clear definitions and contextual parameters, scholars and students can interpret relevant data accurately.

A systematic investigation into **how a consumer's preference and optimum levels of consumption is determined in** reveals several vital characteristics and operational methods. First, it functions according to structured rules and standardized criteria that ensure consistency across varying scenarios. Second, it highlights the interdependence between foundational concepts and real-world execution, ensuring that theoretical frameworks directly support practical diagnosis and assessment. Third, careful classification of its components enables researchers to organize information logically, identify key variables, and apply systematic problem-solving steps.

Furthermore, evaluating the procedural and developmental progression of **how a consumer's preference and optimum levels of consumption is determined in** provides deeper insight into its overall significance. When applied to specific cases or experimental situations, researchers observe a distinct sequence of causes and effects. Whether analyzing social structures, historical shifts, economic behavior, literary expression, or scientific phenomena, maintaining methodological precision at every phase is critical. Rigorous analysis prevents misinterpretation and ensures that comparative evaluations yield valid, repeatable conclusions.

In applied contexts and practical scenarios—particularly within the institutional, socioeconomic, and environmental context of India—the relevance of **how a consumer's preference and optimum levels of consumption is determined in** becomes readily apparent. Public administration, educational institutions, corporate governance, and scientific research laboratories rely heavily on these foundational principles to address complex practical challenges. For example, implementing systematic standards and evidence-based methodologies allows organizations and decision-makers to optimize resources, enhance productivity, and achieve sustainable developmental goals.

In summary, a thorough mastery of **how a consumer's preference and optimum levels of consumption is determined in** is essential for achieving complete conceptual clarity in this field. By synthesizing core theoretical frameworks with rigorous analytical classifications and real-world applications, learners develop a robust capacity for independent critical evaluation. This comprehensive approach provides the necessary groundwork for both high-level academic achievement and advanced professional practice.

Answer 2: Describe the salient features of business cycle. What are the leading indicators and the lagging indicators of business cycle? Answer 7: State the major inferences on policy that we can draw on the basis of new-classical economics. (ignoucollage.in)

About 500 words

The study and understanding of **major inferences on policy that we can draw on the basis of** represents a core analytical dimension within the subject. In academic inquiry, examining this topic involves analyzing its underlying

principles, structural features, and functional mechanisms. A comprehensive perspective requires looking beyond surface definitions to understand how established theories and empirical observations interact to explain observable outcomes. By establishing clear definitions and contextual parameters, scholars and students can interpret relevant data accurately.

A systematic investigation into **major inferences on policy that we can draw on the basis of** reveals several vital characteristics and operational methods. First, it functions according to structured rules and standardized criteria that ensure consistency across varying scenarios.
